

BADU[®] Logic Salt Chlorinators

Quite simply, salt water chlorination is the healthy alternative to chlorinate your swimming pool; the natural way. Fitting a BADU[®]Logic salt chlorinator will transform your pool into a lifestyle asset, ensuring soft, crystal clear water without the red eyes and without dry itchy skin.

Type / Model

BADU[®] Logic 50 8 25 17.5 3.6kg
BADU[®] Logic 100 8 25 17.5 3.8kg
BADU[®] Logic 150 8 25 17.5 4.8kg

Features

- Low maintenance and easy to operate.
- Clear housing for quick electrode inspection.
- Self-cleaning efficiency on electrodes for life.
- Cutting edge cell design so that electrodes do not erode.
- Fully factory tested.

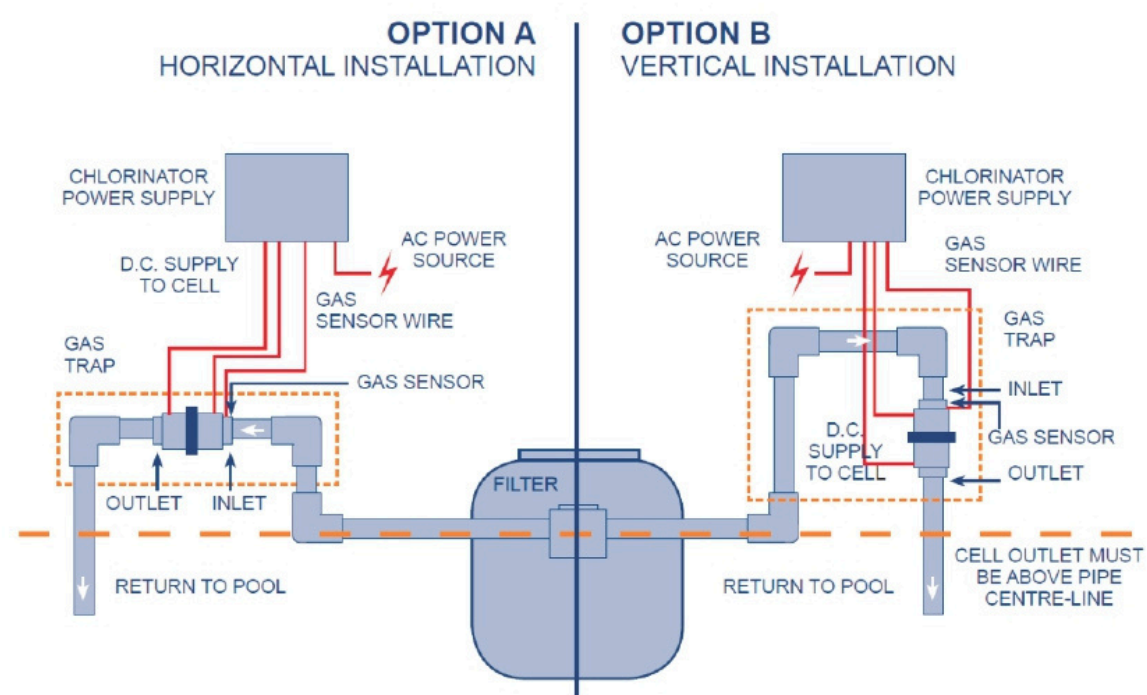

The BADU[®]Logic range of self-cleaning pool chlorinators is low maintenance and even lower operating costs compared to other chlorination methods and create more eco-friendly backwash water while still maintaining high levels of chlorine efficiency.

Low maintenance and easy to operate. Clear housing for quick electrode inspection. Self-cleaning efficiency on electrodes for life. Cutting edge cell design so that electrodes do not erode.

Technical Data	Specifications (All models)
Salt level	5 g/L (Optimum)
Chlorine output / hour at 100%	BADU [®] Logic 50: 10 g/h
	BADU [®] Logic 75: 15 g/h
	BADU [®] Logic 100: 20 g/h
	BADU [®] Logic 150: 25 g/h
Minimum Flow rate	45 L/min or 2700 L/h
Maximum salt level	13 000 ppm
